

SYMPOSIUM FIELD TRIP TO the PLITVICE LAKES NATIONAL PARK 18/09/2024

Meeting point and departure: 9:30 AM in front of the Zrinjevac Meteorological Column/station ([see the map](#)).

Arrival at the entrance to the Plitvice Lakes National Park is expected around noon.

We will travel in two groups/two buses (you will decide on the registration in which you want to be): one group will start the tour at Entrance 1, the other group at Entrance 2.

The sightseeing tour is circular and includes a walk through the Donja jezera canyon, an electric boat ride on the largest lake in Plitvice NP – Lake Kozjak, a ride on the panoramic train and a walk through the canyon. You will see the impressive Veliki slap and Sastavci waterfalls, the lakes Novakovića brod, Kaluđerovac, Gavanovac and Milanovac and Kozjak.

At Sastavci waterfalls we'll meet with the Park employee /astacologist Ivanka who will set crayfish traps in advance and we will check the traps (hopefully full of crayfish) while she will tell us something about crayfish fauna in the Park and her research.

During the tour you will have time to relax.

We will finish the tour around 3:30 PM.

After Plitvice NP we will visit Rastoke, where lunch will be served at the Mirjana Restaurant (around 4:30 PM).

Short free time and return back to Zagreb to the meeting point from which the tour began.

Included in the trip:

- Transport in high-quality tourist buses
- Licensed tour guides
- Plitvice Lakes National Park entrance tickets

- Lunch at Mirjana Restaurant (soup, main course, dessert)

Bring with you (if you think you'll need): hat, sunscreen, walking shoes and water (possibly some snack)
